Purpose of the qualification

Why study the LIBF Level 4 CeMAP® Diploma?

The Level 4 CeMAP® Diploma qualification has been designed by mortgage advisers for mortgage advisers who wish to develop their skills in providing mortgage advice and to demonstrate their commitment to continual learning.

CeMAP® Diploma enables mortgage professionals to set themselves apart from their peers and go beyond the Financial Conduct Authority's (FCA) mandatory Level 3 qualification requirement. It demonstrates to clients and employers that holders have an enriched understanding of the broader financial services environment and the residential lending sector so that they can provide high-quality, ethical advice to consumers.

Objectives and key content areas

CeMAP® Diploma can be taken as a qualification in its own right to meet the FCA requirements to practise, or as a progression route if you have already completed a Level 3 'licence to practise' mortgage advice qualification, for example, the LIBF Level 3 Certificate in Mortgage Advice and Practice (CeMAP®).

CeMAP® Diploma develops specialist knowledge and skills relevant to the mortgage industry. It will enable mortgage advisers and supervisors to demonstrate their professionalism and provide a better service to their customers through an enhanced level of knowledge.

Throughout the programme, you will understand the:

- UK financial services environment and the role of mortgage advisers within it;
- UK mortgage marketplace, focusing on mortgage and protection products to suit different customers' needs;
- UK financial services regulation, including aspects specific to mortgages; and
- house-buying process including the role of the different parties involved.

Key skills developed

The qualification will encourage you to:

- develop an understanding of how financial products respond to the drivers and implications of changes in the wider environment and how these changes affect an individual's financial decision-making;
- demonstrate numeracy skills, including the ability to manipulate financial and other numerical data;
- use appropriate data and information from a range of sources to make financial decisions and recommendations; and
- increase your ability to work and learn independently.

Structure

The CeMAP® Diploma is made up of two parts which need to be successfully completed to achieve the qualification. The first part is the 'licence to practise' qualification, the LIBF Level 3 Certificate in Mortgage Advice and Practice (CeMAP®). If you complete CeMAP® as part of the CeMAP® Diploma, you will also be awarded a CeMAP® certificate and be able to use the CeMAP® letters after your name.

The Level 4 Advanced Mortgage Advice (AMA) forms the second part of the CeMAP® Diploma. When you have completed both elements, you will be awarded the LIBF Level 4 CeMAP® Diploma.

Qualification delivery

Total Qualification Time (TQT)

Total Qualification Time (TQT) is a prediction of the total time a student with no prior knowledge might need to complete the course.

TQT consists of two elements, Guided Learning (GL) and all other hours:

- Guided Learning (GL) comprises study time under direct teacher supervision, encompassing instructional sessions and supervised examinations.
- All other hours include hours spent unsupervised in research, learning, e-learning, e-assessment, completing coursework, exam preparation, and formal assessments.

CeMAP® Diploma is primarily considered a distance learning qualification with on-demand and coursework sessions.

Guided Learning Hours	8 hours
Other hours	452 hours
Total Qualification Time	469 hours

Assessment

All components and modules are mandatory and assessed. The assessment detail for CeMAP® can be found within the CeMAP® qualification specification.

AMA is assessed by multiple-choice questions (MCQs) and a coursework element. A total of 50 marks are available for the MCQ assessment and the pass mark is 70%. A total of 100 marks are available for the coursework. 85 marks are awarded for content and 15 marks are awarded for communication. The pass mark for the coursework is 50%. The structure of the assessment ensures that all aspects of the course content are subject to external examination.

Preparing for the assessment

Your exam for each unit will be delivered via our platform Brightspace, which is where you access your course materials. You can take your exam any time with remote invigilation. There's no need to book in advance.

Before starting your exam, you will be expected to pick up your laptop/webcam to do a full 360-degree scan of your testing space. You must therefore ensure that your equipment is in full working order and can be easily manoeuvred.

To prepare for the assessment you should make use of all learning resources as part of your revision for the exam.

Qualification grading

The overall qualification is graded Pass/Fail only.

Grade classifications are pre-determined and align with the published grade descriptors available to learners.

However, the grade classifications may be subject to change under the jurisdiction of the assessment board where this is necessary to maintain standards of validity.

The qualification grade boundaries are as follows:

Assessment	Total Marks	Pass Mark
MCQ	50	70%
Coursework	100	50%

Feedback is provided via analysis sheets available on [MyLIBE](#), to see your strengths and areas to develop.

Re-sit attempts

Each module within CeMAP® has a registration period of 12 months. For each unit in which you are unsuccessful, you are restricted to three exam attempts in a week and to ten exam attempts overall in any 12-month period.

Additional information

Entry requirements

There are no entry requirements for the CeMAP® Diploma. However, you need to be satisfied of your ability to study in English and perform basic mathematical calculations.

Recognition of prior learning (RPL)

LIBF recognises prior learning in different forms. Potentially, this means that you may not be required to register for every unit. Details of how to apply for recognition of prior learning are available on our [website](#).

If you already hold the LIBF Level 3 Certificate in Mortgage Advice and Practice (CeMAP®), or an equivalent qualification, you can complete the CeMAP® Diploma by just completing the second part, AMA.

Progression and preparation for further study

If you wish to develop your skills further in financial advice you can progress to the Level 4 Diploma for Financial Advisers (DipFA®). CeMAP® Diploma holders can also progress to other LIBF qualifications subject to entry requirements.

Preparation for employment

The CeMAP® Diploma develops further knowledge and understanding of the mortgage industry and enhances skills that are valued within that sector and others, but it does not qualify you for direct entry to a particular occupational role.

Appendices

Appendix 1 – CeMAP®

The CeMAP® unit descriptions and syllabuses can be found within the CeMAP® qualification specification.

Appendix 2 – Advanced Mortgage Advice (AMA)

Appendix 2 provides a description of AMA and syllabus which includes the learning outcomes and assessment criteria for the unit.

Unit 1 assessment methodology

The assessment of AMA will have two components:

Part A. An electronic assessment with 50 multiple-choice questions. This component is assessed out of 50 marks.

Part B. Coursework. This component is assessed out of 100 marks.

Unit 1 Learning outcomes and assessment criteria

Learning outcome (LO) The learner when awarded credit for this unit will:	Assessment criteria (AC) Assessment of the LOs will require a learner to demonstrate that they can:
1. Understand the house-buying process	1.1 Explain the role of various parties involved in the property transaction 1.2 Describe the impact on the vendor and purchaser if the process breaks down
2. Examine the economic and regulatory context	2.1 Analyse the current economic environment and its impact on the mortgage market, including SDLT 2.2 Analyse different sources of mortgage finance 2.3 Evaluate the different sources of mortgage advice and mortgage finance 2.4 Analyse the regulatory and legislative environment
3. Examine the principal types of property defect that surveys can identify and other factors that can affect the value of the property	3.1 Describe the main property defects and how property defects may affect the lending decision 3.2 Explain how different factors can affect the valuation 3.3 Compare the different guarantees available with new-build properties 3.4 Discuss potential issues with buying new build properties 3.5 Discuss the implications of buying 'off plan'
